

# **SECTION EUROPEENNE : COMENIUS PROJECT**

jeudi 20 février 2014, par [Gaëlle JEAN](#)

## **What are we talking about ?**

It is a European learning program, set up by our English and Management teachers, with other teachers from Europe.

This project is a way for us to improve our English and our Business knowledge.

We have two years to communicate, to learn to know each other, two years to create a virtual start up in the tourism sector.

There are four countries in the project : France, Germany, Spain and Italy so four high schools, more than 100 Comenius members.

We are gathered around a single project : “start up your bright future in Europe : be your own boss ! “

To reach our goals, we work all year round and meet our European friends in the different countries.

Thanks to a Comenius Blog, we share our discovery and knowledge on the business world.

This board will show you what we do and how our project is going on. Please have a look !
