

COMENIUS PROJECT : Our video !

jeudi 20 février 2014, par [Gaëlle JEAN](#)

Our first mission was to make a video to show our school to our European friends.

We chose "Get lucky" by Daft Punk

because they're french and we like this song very much.

In this video the French comenius team discovers different classes of our high school (library, scientific and gymnasium) and different school members.

We did a choreography to move from a class to another and to try and make it look fun.

You should be able to watch it on the Lycée Aubrac Website very soon !
